BUG-002: Customer w/o contact info crashes app

Description

When clicking on a Customer that has no Contact info (Denver's Water) the app stops working. No message is displayed (as expected), and all content vanishes. From there it is not possible to return to the Customer List Screen, forcing the user to restart the app from the Welcome Screen.

Found in

- **Test Case:** TC05
- **Date:** 18/05/2024 – 16:40
- **Environment:** http://localhost:3000/ (Google Chrome)
- **Tester:** Danilo Vieira

Steps to reproduce

1. Open the application
2. Enter any name on the text field and click on "Submit"
3. The list of customers will be displayed. Click on Denver's Water
4. The application will display a blank page (except for the blue background).
